

NGINX Plus on Arm-Based AWS Graviton2 AMIs

Value Proposition

If you are:

- Using or planning to use application and web servers
- Hosting or planning to host your workloads in the cloud

And aspire to:

- Improve performance, lower costs, and deliver services reliably at scale
- Easily deploy web servers in a few clicks

NGINX Plus on AWS Graviton2 AMIs:

- Performs more than 50% better and costs 20% less than on M5 AMIs
- Deploys easily from the AWS Marketplace in new or updated versions
- Runs on any supported OS and container type to leverage AWS tools and services

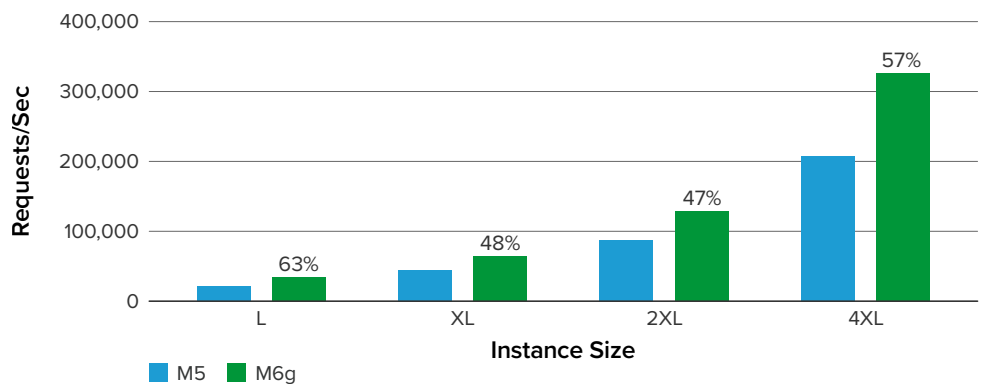

Benefits from Graviton2 AMIs

Compared to the x86 M5 AMI, the Graviton2 M6g AMI delivers:

 40% better price-performance

 20% lower cost

Performance Gain for M6g Versus M5 AMIs for Reverse Proxying with HS256 JWT-Based Authentication
